

Journals

Current issues are displayed on the revolving journal stands and back issues are shelved in A-Z title sequence within the Library.

All journals are for **reference only**.

Full Text Electronic Journals

Over 3000 full text electronic journals are available from our website. An ATHENS password is needed for most titles.

Inter-Library Document & Book Supply

If you require any journal article or book which is not held in the library, we can search other collections on your behalf at:

- Other regional health libraries (no charge)
- The British Library (£6 charge)

Just complete a book or article request form* and pass it to library staff. All except British Library books can be sent to you via the van service. If possible, please allow at least 1 week for this service.

Literature Search Service

If you would like a member of the library team to undertake a literature search on your behalf, simply complete and return a literature search request form.*

* Forms are available to print from our website.

Photocopying

Self service photocopying is available in the library. An EMOS copy card, giving 60 credits at a cost of £3, is available from a dispenser within the library.

Alternatively, post or fax a signed request form for each article. Where required article is held on site, the library team endeavour to process requests within 48 hours, charging department/practice as instructed (10p per page), then sending to your workplace via the van service.
